FREQUENTLY ASKED QUESTIONS

Q: How might my customers benefit from taking Extreme Ripped Force™ EF?

A: Extreme Ripped Force™ EF provides a potent combination of standardized botanical extracts, caffeine, and amino acids to help promote energy levels and fight off fatigue without the use of ephedra.* Extreme Ripped Force™ EF's large 22 fl. oz. serving size encourages proper hydration while its 24 grams of Stacked Carbs™ foster maximal glycogen resynthesis.* Added antioxidants and metabolic cofactors contribute to the overall effectiveness of the formula and aid with fat metabolism.*

Q: What's in Extreme Ripped Force™ EF?

A: 500 mg of ABB's exclusive ACT (Adrenergic Catalyst Technology) EXTREME blend is the foundation of Extreme Ripped Force™ EF. This superior blend includes time-tested ingredients like Advantra Z®, Guarana, Kola Nut, and Caffeine as well as progressive elements like Coleus Forskohlii (ForsLean®), Octopamine, and Evodia. Extreme Ripped Force™ EF also contains 250 mg of pure L-Tyrosine (a precursor to alertness neurotransmitters in the brain), Vitamins C, E, and the mineral Selenium (to protect against oxidation that results from strenuous activity) and Vitamin B6, Niacin, Pantothenic Acid, and Chromium to aid with carbohydrate metabolism and glucose disposal.*

Q: What are the main differences between Extreme Ripped Force™ EF and Ripped Force™ EF?

A: While both supplements are used for similar reasons (energy, alertness, thermogenesis), significant differences exist between the two products. For starters, Extreme Ripped Force™ EF is packaged in a 22 fl oz bottle while Ripped Force™ EF is offered in smaller 18 fl oz bottles. So, from a hydration standpoint, Extreme Ripped Force™ EF has an edge. Extreme Ripped Force™ EF also has an edge in potency levels with 5 additional milligrams (mg) of Synephrine, 50 more mg of Caffeine, an extra 100 mg tyrosine, twice as much Chromium, and Evodia, Coleus Forskohlii, Kola Nut, and Grapefruit extracts. A final noteworthy point of distinction is, Ripped Force™ EF is available in 5 flavors while Extreme Ripped Force™ EF is only offered in 3.
